

C² MAINTENANCE

Clean, protect and strengthen in one step.

C² Maintenance is a cleaner designed specifically for lithium silicate–treated concrete floors. Its blend of degreasers and detergents removes everyday soiling while a built-in lithium silicate hardener strengthens surfaces exposed by traffic or abrasion. Regular use keeps concrete floors looking their best and performing at the highest standard in any environment–from warehouses to schools, hospitals, and retail spaces.

- Maintains concrete floor hardness and shine.
- Flexible dilution for both surface and deep cleaning.
- pH balanced to the unique pH of concrete.
- Readily biodegradable. Low toxicity.
